## Description:

Chicago P.I. Nate Heller finds himself on dusty back roads with a supposedly dead John Dillinger and the rest of Ma Barker's boys as he tries to foil their bold, audacious plan to kidnap J. Edgar Hoover.

At first glance, the title of this may be deceiving, because "true crime" has come to have a very specific meaning. However, this is fiction, so in the strictest sense of the genre title, this is not "true crime". However, in a broader sense, it is exactly that, on several levels, and it is a tightly written, action filled thriller with much to recommend it. If you enjoy historical fiction as I do, you will find this satisfying, because it is obviously well researched, not just in the main areas of consideration, but in small yet crucial details. I got the feeling, on more than one occasion, that I was watching an episode of the original "Untouchables", even though this story takes place a few years after that series. The atmosphere is very true to life, and so well portrayed that the reader can almost hear the music, taste the food, and feel the heat of the sidewalk beneath his/her shoes. The World's Fair is in full swing, and John Dillinger is on the loose ...and everyone is hunting him. So, while the book is fiction, it recounts, I suspect very accurately, things that happened in Chicago during the last part of the 1930s, just after the repeal of prohibition and just before the beginning of the Second World War. America is just starting to climb out of the Great Depression, and Chicago is run by a combination of corrupt politicians, more corrupt police, and mobsters. The FBI is a strong presence too, and their agents are finding it difficult to function in this often clandestine environment. Nate Heller is a free agent, though a former police officer (and an honest one, at that), and his conscience gets him into very serious trouble with just about everyone, all along the spectrum. He persists, though, and along the way we get to see, among other things, an inside view of the Barker Gang, Baby Face Nelson, and other infamous characters in new ways ...not just icons of outlawry without personalities, but as human beings who, like all of us, are a mixture of traits. I liked this book, because it is an excellent story well told, and well written.
